Dear Sir or Madam

Bradwell A143 Beccles Road, Carriageway Surfacing

Norfolk County Council are proposing to carry out essential work to resurface the carriageway on Beccles Road. The construction works are programmed to begin on or around 13th October 2025 and are scheduled to last 5 nights, with expected completion on or around 18th October, weather permitting.

To ensure that the works are carried out safely for road users, pedestrians, and the workforce we will complete the surfacing work under the road closures. To minimise the disruption to highway users, the road closures will be in place as following:

Surfacing work on A143 Beccles Road

From 13th October 2025 to 18th October 2025

Timing: 20:00pm (13th October 2025) to 05:00am (18th October 2025)

Vehicular access to properties and businesses within the closures will be maintained where possible, and a signed diversion route for vehicular traffic will be in place. Emergency services will be aware of the closures. For your information, please see drawing no. PMB955-HPD-0100-002 showing the site location and the diversion routes.

We endeavour to minimise the inconvenience caused by these works but I hope that you will understand these requirements. If you do have any comments, please contact me either by mail, email or telephone.

Yours faithfully

Bimal Ranjit
Engineer, Highway Projects
Encl.
